MINERS TO ABIDE BY LEWIS DECREE

By TROY GORDON

PITTSBURGH, Dec. 1.-John L Lewis made a half about face today in New York and ordered his 400,-000 soft coal digger back to work on a three-day work week beginning Monday.

The back-to-work order came after a walkout of all 400,000 of the United Mine workers bituminous miners closed down the country's soft coal fields.

Dennis Harshall, a representative of UMW District 5 in Pittsburgh, said: "If that's the order, it'll be car

He refused to comment. How ever, on Lewis' decree limiting the work week to three days.

It was generally expected that the diggers would heed the Lewis order without question. George H. Love, president of Pittsburgh Consolidation Coal Co. and chief spokesman for the northern operators, was not imme-diately available for comment, but

his office indicated he may have a statement later today. A high-placed coal source in Pittsburgh interpreted Lewis' au-thorization to local officers to sign wage contracts with any or all individual companies as a move to round up the smaller companies, of which there are a large number. The source added that as far as he could see though, it would have

Keeping Within Budget

A nosy questionnaire has arrived wanting to know down to the last nickel what I am going to do with my national service life insurance dividend check which reaches me early next year.

It seems that the government is curious as to how we glorious heroes of World War II plan to get rid of the two, three, or four hundred dollars we have coming to us. Will it go for an automobile, a second honeymoon, a television set, a pair of mules for spring planting, a fur coat for the little woman, or be plunked in a savings account against a rainy day?

I wish I could be of some help in this matter, but we don't keep a budget book any more. We used to have one, a handsome, vellum-bound number, but we were forced to pawn it when the fireless cooker we had counted on to last a couple of more years began acting like a deep freezer, and we had to buy a new one.

Rid Of Budget Book

It is just as well that we are rid of the budget book, because neither Jean nor I is gifted with the gift of prophecy, and that is what it seems to take to keep a budget anywhere near in line. Matter of fact, if could peer into the future with enough certainty to keep a budget at all straight I would pitch a tent by the side of a road, call myself Madame Zaza, and go into business of predicting the future for a

I have the greatest admiration for men and women who can keep within a budget. They are blessed as few people are because they have occult power. They know to the half hour when a pair of shoes is going to wear out, when the bottom is going to fall out of the garbage pail, when a wisdom tooth is going to act up and have to be removed, and when Mary Ann or Billy is going to come down with the

Such guidance from the blue has never come my way. Just the opposite, in fact. Things out of the blue, all right, but with no warning to me. I remember that only a week after we started our first budget an elderly aunt of mine came for a visit and the second night in our house sprained an ankle when she tripped over a covered brick doorstop. We had her on our hands for three weeks, and there was no page in my budget book marked "Emergency Fund for Aunts Who Trip Over Doorstops". To take care of her we had to borrow from the pages headed "Payments on Player Piano" and "Clothes for Proposed 1951 Trip to Yosemite Park". And to repay the Player Plano and Yosemite pages we had to borrow from such sections as "Bicycle Repairs", and 'Cornet Lessons for Mother".

So there is no telling what I'll do with that veterans insurance windfall. That same tripping aunt plans to visit us in the spring, and now that she's quite a bit older she is likely to sprain more than an ankle. And Mother, bless her, still is hounding me for the series of cornet lessons I promised her years ago. She says that for the life of her she can't understand why my brothers came through with the kulele and kettle drum lessons they said they'd give her, and I'm still holding out on the cornet course.

Sorry I can't be of more help, but I'll just have to be written of as a flibbertigibbet who doesn't know his own future.

Four-H club work, he stated, can be divided into three groups, the members, the parents and the leaders.

All must be integrated in the movement if it is to succeed. The youths cannot get along without the men and women who give their

time to supervise the work.

In Pennsylvania, he announced there are 26,000 boys and girls engaged in active club work, with 3.000 senior extension members those who have graduated from

4-H ranks, and 3,000 adult leaders. He stressed the value of capable leadership and lauded those who give their time in this work. The average male leader, he stated, spends around 103 hours a year in this work, while the average woman leader spends around 104 hours.

He then pointed out-where Kiwanis can fit into this picture. The time is coming, he stated, when all service clubs should make an effort to join with the rural people so that better urban-rural relations can be maintained, and both rural and urban folks can get a better understanding of each

Leaders Introduced

There were approximately 30 ladies and men from the rural sections of the county, who are leaders in the 4-H club work, who were guests of the club and were introduced, in addition to Agricultural Extension Association offiincluding County Agent L. Look for Congress to wipe the draft law off the books next year. There may even be a congressional investigation of the selective service program shortly before the law

Another factor pointing to the end of the draft is the fact that 1950 is an election year. Congress isn't likely to approve a law that most legislators believe would cost

Oh-Shah!

State department protocol of-ficers feel that the visit of the shah of Iran would have come off better if he had been described to Americans as the shah of Persia. The royal visitor then would have been a household name to

every American who owns an Oriental rug or has read the verses of Omar Khayam. The visit itself was regarded by the State department as of extreme

importance, but the protocal peosuch to the public.

The shah and his entourage, most of whom, like the monarch

himself, had never before been to the United States, were extremely sensitive as to prerogatives. When the shah went to London for the 1948 Olympic Games, he

was much annoyed at not being met at the airport by King George. The British foreign office had a tough time assuaging his bruised feelings.

The incident caused complications later. When the king of Afghanistan went to Paris for an eye

operation, he planned to stop at Teheran, Persia's capital. He was told that the shah would not meet him since it was not a state visit.

The Afghan ruler promptly sent word that under those conditions he just wouldn't come. Thereupon

the shah changed his mind and went to the airport.
President Truman dodged these complications by sending his per-sonal plane to Persia to pick up the

potentate, then meeting him, in person, at the Washington airport. Wood stoves still are widely used in certain parts of the country for home heating. This is par-

NEW CASTLE 343 E. Washington St Proposed Hospital Center For New Castle Will Be At Pittsburgh Hospital

By JOHN HARMS

HARRISBURG, Dec. 1.-Twelve strategically charted areas were plotted Wednesday by the State Health department to facilitate the unceasing battle against poliomye-

the areas centering on major hospitals, will be outlined to the state's new polio planning committee at a meeting January 28.

"The divisions at present are only tentative." Vaux said. "They have not been adopted, but merely drawn up as a suggestion to the ly drawn up as a suggestion to the committee for action."

Through the establishment of these 12 areas and setting up strategic care centers within each area, we hope to make the commonwealth better prepared for polio

outbreaks." he explained.

A blueprint for the areas and their care centers was decided upon by the polio planning com-mittee, made up of health and welfare officials of private and governmental agencies, as a spring-board for the state's scientific at-tack on future polio outbreaks. Tactical Distribution

though urban areas apparently had adequate and sufficient facilities to care for the average number of acute polio cases there was a need for more tactical distribution of facilities

A special sub-committee told the group earlier that there were not enough facilities for convalescent care and mainly for an increasing number of adult cases throughout the commonwealth. The report also of facilities for long-term cases.

It was indicated the division into strategic areas was the first major step in the battle against poliowhile expansion of the program will be pushed later.

The proposed hospital center for the Pittsburgh Municipal hospital, covering counties of Allegheny, Westmoreland, Washington, Greene, Fayette, Indiana, Armstrong, Clarion, Butler, Beaver and Lawrence.

Tobin Hails Fight

Against Communism By Labor Unions

PHILADELPHIA, Dec. 1.—(INS) -Secretary of Labor Maurice J. Tobin hailed labor's fight against communism as a step forward for

the American working man. Tobin declared in an address prepared for delivery at the founding convention of the CIO's Inter-national Union of Electrical, Radio and Machine Workers:

We don't want any agents of the
Kremlin in American labor . . .

labor has realized that the one way of losing its freedom is to be a party to the inhuman tyranny of operative Communism.

He stressed, however, that the CIO's ouster of left-wing elements 'does not mean that American abor has grown illiberal or un

The convention was also slated to hear Navy Secretary Francis P. Mathews and W. Stuart Syming-ton, secretary of the air forces. An IUE spokesman announced, owever, that Mathews' had been detained in Washington by a planegrounding fog.

Napoleon wrote: "Alexander, Caesar. Charlemagne and I founded great empires, but upon what did the creation of our genius depend. Upon force. Jesus Christ alone founded His empire upon love, and to this would die for Him."

Mrs. James Monroe, wife of President Monroe, is reputed to have spent up to \$100 a night for candles for the White House.

Buy Stamps Early Postmaster Asks

Purchase Of Adequate Supply Now Will Avert Jam Later In Season

By making an estimate of the number of stamps one will need at the Christmas season, and making purchases now, before the rush starts, New Castle folks can save themselves a lot of delay later in the season as Christmas draws nigh, Postmaster William R. Hanna stated today.

Most folks put off buying their stamps until they actually need them, as well as their Christmas mailing, with the result that there is always a bottleneck during the last week before Christmas.

Mail your Christmas packages early also, he advises. If folks ship their Christmas packages now, they will not only arive in good condition and not be caught in the jam, but they will be assured of getting there in plenty of time.

Packages can be marked "Do not open until Christmas," and by mailing early the sender will save himself endless minutes of waiting in line for the harrassed post office clerks to serve them later on.

Denfeld May Be Candidate

Ousted Chief Of Naval Operations May Seek Congress Seat

OTHER NEWS OF NATIONAL AFFAIRS

WASHINGTON, Dec. 1.—Admiral Louis Denfeld, the ousted chief of naval operations, reportedly is considering running for Congress from Massachusetts. Denfeid was said to be sounding out politi-cal leaders in his home town of Westboro, Mass. If they approve, he may enter politics.

he may enter politics.

The admiral presumably would run as a Democrat, and some top Democratic party men in Washington were said to be ready to support his candidacy.

U. S. Senator Francis J. Myers has an engagement in the eastern part of the state on the night of December 8 and could not be here.

The aid that Denfeld would get from These Democrats stems from fears of some party members over the ambitious rise of Defense Secretary Louis Johnson, reported in some circles to be aiming for the vice presidential nomination in 1952

DEFICIT GROWS

Does the American government face a seven-billion-dollar annual deficit as long as the "cold war"

The heaviest peacetime deficits in American history are piling up ahead and there is little prospect of any remedial action being taken

by Congress.

Best informed forecasts are that the red ink figure for the current fiscal year ending June 30 will be seven billion dollars rather than the five and a half billion forecast recently by Budget Director Frank

This would mean \$14 billion in the red in two years. At this rate, if the cold war lasted 10 years, the government would pile up \$70 bil-lion in deficits and run the public debt up to \$320 billion.

New Orleans Mayor Outlines Plan At Meeting Of Mayors In Cleveland

CLEVELAND, Dec. 1.—(INS)— Mayor De Lesseps S. Morrison of New Orleans called for a united attack against syndicated crime at the opening session of the Ameri-can Municipal association conference Wednesday in Cleveland.

Mayor Morrison also outlined a seven-point program to strengthen Love ocal government in his presidential address to some 400 mayors from the United States and Europe. dicates. Morrison said:

"We would not be true to ourselves if we did not condemn this practice, focus public attention upon it, and by our own actions and those of others, seek to wipe

Following Morrison's talk, Mayor William F. Devin of Seattle told the 500 mayors and other municipal leaders that state and nation unity on matters of policy is essential for cities if they are to solve

their problems.

Because of rural domination of many state legislatures, he said, "a united program for all cities is

absolutely imperative."

The conference then turned its attention to problems of street and highway financing.

B. And O. Employes Expected To Give Around \$300 To March Of Dimes

NOVEL METHOD IS BEING USED

As a means of helping to raise funds for the National Foundation for Infantile Paralysis, clerks on the Southern Railroad at Birmingham, Ala., started a "Hobo Bas-ket." on a 10.000-mile tour of the country in 1947. It traveled the rails of 19 railroads in 29 states, and brought in \$11.494.

So popular was the appeal that the group was asked to start it again this year, and it is now on its way. One of the few places it ill visit on its trip into the north will be Pittsburgh, Cleveland and Cincinnati and intermediate points on the Pennsylvania R. R., B. and O., New York Central and thence back to the Southern Railroad.

Start Fund Here

Local employes of the B. and
O. started to make a collection
yesterday, and if it continues as
good as it started off, the employes re expect to have approximately \$300 to put in the basket when it reaches here. The money received in any locality goes to the local chapter, and the Lawrence County Chapter will receive the fund given by the local railroad em-

loyes. When the employes Here have

These Things Will Happen If The Anti-Trust Lawyers Have Their Way

When the anti-trust lawyers from Washington filed their suit against A&P, we told the American people, our customers, our suppliers and our employees how this attack would affect them.

We said that this attack, if successful, would mean the end of A&P as you know it.

We said that it would mean higher food prices for American consumers.

We said that if they succeed in destroying A&P the way would be cleared for the destruction of other efficient large-scale retailers.

We thought the American people were entitled to know about this threat to their welfare and standard of living. Since that time, however, the anti-trust lawyers have been making speeches, talking over the radio, writing letters and giving stories to the newspapers, in which they say we are all wrong.

They say that this suit will not close a single A&P store; and that instead of raising food prices it will lower them.

And they have tried to give the impression that nobody will be hurt by this decision except the present owners of A&P.

We don't think that the American people want to be confused by these statements. We know that when they have the facts, they will understand that this case can affect the living standards and the way of life of every American citizen.

Here are the facts;

It Will Destroy A&P

The anti-trust lawyers have repeatedly stated that "the suit will not result in the closing of a single A&P store", and that "the purpose of the suit is to enjoin A&P from continuing activity which has been held to violate the law."

The fact is that the suit is designed not only to "enjoin" A&P from alleged illegal activities, but actually to destroy the company.

Here is what they have asked the court to do:

Break up A&P's retail stores into seven groups, each of which must be sold to different owners, and operated under new management.

Order us to sell A&P's factories, which produce many of the fine foods you find in our stores, to still other new owners.

Prevent any of the seven groups of stores from operating any of the factories.

None of the present owners, who have made A&P what it is today, can have anything to do with either the stores or the factories.

The first A&P, store was opened 90 years ago. For the past 50 years the

company has been managed by George L. Hartford and John A. Hartford.

These are the men who have pioneered the policy of low-cost, low-profit, low-price food retailing which has won A&P the patronage of millions of American families and given them more good food for their money.

If the anti-trust lawyers have their way, these men and other company executives will be completely out of the picture. No one can predict what the policies of the new owners of the various parts of A&P will be.

No one can predict that they will sell the same quality food at the same low prices, or that they will keep the same employees, or give them the same high wages, short hours, pensions and security.

Nor, despite the anti-trust lawyers' statement, can anyone tell how many A&P stores will remain open or will be closed.

So, while there may be a food store where your A&P is now located, it won't be your A&P store.

Make no mistake about it. If the anti-trust lawyers win their suit it will mean the end of A&P as you know it.

Your Food Will Cost More

The anti-trust lawyers have repeatedly stated that the suit will not increase,

but should decrease, grocery prices.

Anybody who has ever shopped in an A&P store, or has ever taken a high-school course in economics, knows better than that.

Everyone knows that A&P's policy has always been to keep costs and profits at a minimum so that it can sell good food cheap.

The very heart of the anti-trust lawyers' case is that A&P's methods, which they claim are illegal, have enabled the company to undersell competitors. How can anyone possibly say that you will get lower food prices by eliminating the company that has done so much to bring them down? Actually, there is no question that this suit, if successful, will mean higher

food prices for A&P customers.

Here is just one of a number of reasons:

We manufacture many of the quality foods we sell in our stores, such as Bokar, Red Circle and Eight O'Clock coffees, Ann Page foods, White House milk, and many others.

The anti-trust lawyers admit that we pass along these manufacturing savings to our customers in the form of lower prices.

But, the anti-trust lawyers have asked the court to order us to get rid of our manufacturing facilities, which would put an end to all these savings.

This means that if these A&P brands continued to be manufactured, you would have to pay higher prices for them wherever you found them.

The anti-trust lawyers say that food prices would go down in other stores. They claim that food manufacturers would be able to sell cheaper to other grocers because they would not have to make up alleged losses they now incur in selling to A&P.

This, of course, is pure nonsense. The suppliers who voluntarily seek our business and are now rushing to our defense obviously find it profitable to deal with A&P. Actually, their sales to this company enable them to build up their volume, reduce their costs, and sell more cheaply to all grocers.

The elimination of A&P from the picture would tend to increase, rather than decrease, the wholesale cost of food; and this, in turn, will be reflected in increases in retail prices.

Make no mistake about it. If the anti-trust lawyers succeed in putting A&P, out of business you will find your food bill is higher.

Others Will Be Hurt

The anti-trust lawyers have insisted that this suit will not affect other distributors, "nor will it destroy any efficiencies of mass distribution."

The fact is that the anti-trust lawyers ask the court to break up the company, make it get rid of its admittedly legal manufacturing operations and in general destroy many of the efficiencies which have enabled it to sell food sheaper.

If such an attack is successful, it immediately raises the likelihood of similar attacks on other chain stores.

The anti-trust lawyers are saying that they "do not contemplate any other suits of this nature at this time."

But that does not mean that they cannot undertake such suits at any future

As a matter of fact, the anti-trust lawyers made practically the same allegations against two of our largest competitors that they are making against us. And it can also be used as the basis for an attack against other grocers and

merchants in other lines.

There are today literally thousands of chain stores, voluntary groups and individual merchants operating with the same methods and in the same pattern here under attack.

If A&P is destroyed, no businessman could safely pursue an aggressive sales policy designed to lower prices and give his customers a better deal if by so doing he takes business away from any competitor.

Even if the anti-trust lawyers have no intention now of prosecuting other suits, a decision against A&P will establish a precedent that could be used by the present anti-trust lawyers, or any future anti-trust lawyers, to destroy any efficient business that buys cheaply, sells cheaply, and grows big in the process.

Such a decision would mean the end of the vigorous, healthy price competition which has given this country the highest standard of living ever enjoyed by any people anywhere in the history of the world.

The anti-trust lawyers are trying to give a new interpretation to the anti-trust laws that, instead of preserving competition, will reduce competition. They are trying, by court decision, to impose a new kind of economic policy on the people of this country.

Make no mistake about it. If they succeed in destroying A&P they will be destroying the method of distribution that has helped make the American standard of living the envy of the world.

Children At Oak Street School Complete Overseas Christmas Box Campaign

Even small children know how and when to lend a helping hand. The annual overseas Christmas gift box campaign has just been completed at Oak Street school. Under the direction of the teachersponsor, Miss Edna M. Griffiths, the children have packed twentyfive Red Cross gift boxes. Realize Need

Children realize that there are those in the world who are less fortunate than they are, and in some small way like to give these luckless children a few luxuries. Each child at the school brought a few small articles which could be easily packed in the gift boxes.

Richard Barber and Nancy Logan were appointed Junior Red Cross representatives for the entire school, and it was their duty to see that each box was properly packed an ready to be sent to the local branch of the Red Cross These two children worked on Saturdays at the local chapter.

Small Blaze Occurs Over Smoke Pipe From Furnace Early This Morning

Prompt discovery by Nelson J. McCluskey, of a smouldering blaze over the smoke pipe from the furnace, at 6:50 a.m. today, prevented serious destruction to the Walmo school in Neshannock township Fire Chief James W. Messner of the Neshannock Township Volun-

teer Fire Department, stated today.
The fire started at a point over the smoke pipe, which had been left unplastered, and the heat from the pipe set fire to several 2 by 8 cross pieces, which were about four inches away, although the smoke pipe was covered with asbestos. The protection, however, was not enough to prevent the wooden pieces from catching fire. The janitors had the blaze under control when the firemen arrived.

and they soon had the fire out.

Professional Basketball May Be Headed For Rocks

NEW YORK, Dec. 1.—Professional basketball is in imminent danger of going on the rocks.

Ned Irish said so today. And, Ned, as you know, is not only vicepresident of Madison Square Garden, but also is generally known as Mr. Basketball.

As Ned sees it, the fans are getting fed up with games where the aggregate score of two teams soars over the 200 mark. Ned may not be particularly interested in the artistic or esthetic value of such games but he surely is deeply interested in the effect of high scoring on the gates.

Greatly Worried "We are worried about this," Ned admitted today "and we are going to take it up at the next

league meeting.
"Nowadays the scoring has got simply don't try to hold down scores. They are all interested only in scoring.

'The players don't play for possession as did the old timers. They go all out for the basket.

'Another thing bothering us is the constant fouling. We have had more than 60 fouls called in one pro game. That's fantastic.

"This is nearly fantastic."

Court House Propose School

County Prepared To Ar. range Classes If County Assessors Wish To Attend

OTHER EVENTS IN COURT HOUSE

County assessors who wish to school themselves in the proper method of assessing will probably have the opportunity in January.
Fred H. Miller, advisor of the
Public Service Institute of the state Department of Public In-struction, met with the county commissioners Tuesday and laid

the proposal before them.

Mr. Miller said there are schools
operating in many counties of the state and offered to have instruc-tors sent in here if the county commissioners and assessors agree

The instruction would cost nothing but the county commission-ers would buy text books for the ten lesson course. The assessors would have no expense.

Assessors will be notified of the proposal and if sufficient of the 37 in the county are interested the course will start here on January 24, 1950.

ADVERTISE FOR HEADSTONES Bids for headstones both mar-ble and bronze will be advertised by the county commissioners following action on Tuesday.

SENTENCES IMPOSED Ten sentences were handed down Tuesday morning by Judge John G. Lamoree. The names and

charges follow: Otis Burris, operating a motor vehicle without the consent of the owner. Probation for one year and fined \$50 and costs.

Chester Coates, larceny. Probation for one year, \$25 fine and

Ivor Johns, driving while intoxi-cated, fined \$100 and costs and 30 days in the county jail. Out in three days if the fine and costs are paid. On the same charge Robert E. Mayes and Frank J. Taylor, Jr., drew the same sen-

Jonathan H. Taylor, assault and battery. Probation for one year, \$25 and costs.

Jesse Phillips, unlawfully carrying a revolver. Fined \$25 and costs or 60 days in the county jail. Davis Myers, operating a motor vehicle after suspension of license. Fined \$200 and costs or six months

in the workhouse. Howard Flickner, assault and battery, fined \$1 and costs and 90 days in the workhouse.
